## Pittsburgh

PITTSBURGH, Oct. 20.—There was not much doing in the local market, sales footing up a little more than 4,000 shares, of which 2,400 shares were low-priced mining stocks. Ohio Fuel Supply was in fair demand and that stock continued its upward movement, advancing from 47 to 47 1/2. Manufacturers Light and Heat rallied from 58 to 58 1/2, and other members of this group were dull but steady. Westinghouse Air Brake advanced 103 to 103 1/2, and Electric from 42 1/4 to 43 1/4 on light dealings. American Window Glass Machine common was 1/2 lower at 46 1/2, and Crucible Steel preferred sold at 90 1/2, a decline of 1/2 from the last previous sale on the local board. The remainder of the market was quiet but steady. Pittsburgh Brewing 68 sold at 50 1/4 to 50 and closed unchanged for the day.

## Oil and Gas.

The Carnegie Natural Gas Company's well on the J. L. Phillips lot, located on Dents Run, Mannington district, Marion county, West Virginia, is the largest producer the West Virginia fields have furnished in many months. The gauge for the 24 hours ending at 7 o'clock yesterday morning was 430 barrels. The well is located about 500 feet southwest of the Blackshore Oil and Gas Company's No. 1 on the Ward Satterfield farm, which was drilled into the Gordon sand several months ago and is still holding up at 90 barrels a day. The

company is starting another well on the Phillips lot. There is room in the vicinity of the two good producers for a Gordon sand pool of some dimensions. In that locality there is a chance for production in the 100-foot, 30-foot sand Gordon sands. If nothing is found in any of the formations there is still a chance for a gasser in the lower sands. Those holding leases in the vicinity the Blackshore Oil and Gas Company, Shimmell & Co., and the South Penn Oil Company will not delay starting new work, it is said.

On Dents Run in Mannington district the South Penn Oil Company has drilled its test on the A. M. Glover farm through the fifth sand. It is a gasser in that formation. This location is 1,500 feet northeast of the Hope Natural Gas Company's test on the Ella Kinsey farm. The Carnegie Company's well on the Ann E. Robey farm, located on Indian Run, Eagle district, Harrison county, has declined from 100 barrels, its initial production, to 40 barrels a day.

## Grain and Produce

CHICAGO, Oct. 20.—Corn prices averaged lower yesterday influenced largely by seasonable weather putting the crop into readiness to shipment. Prices closed unsettled, varying from 1/4 decline to 1/4 advance, with December 1.15%, and May 1.10% to 1.10 1/2. Oats finished 1/4 and 1/4 to 1/4 down. The outcome in provisions ranged from a setback of 40 cents to a rise of 1/4.

## New York

NEW YORK, Oct. 20.—Equipments and other issues comprising the more important war shares were again the conspicuous features of yesterday's strong and active stock market. Ralls and the securities of other companies which derive less direct benefit from

war's demands also moved forward, though more deliberately.

The strength of the war group was chiefly due to an interesting recognition of the advantageous position occupied by some of these stocks in connection with new and very large contracts.
